

*Smallest Family Member!*

**COYOTE® RUNT Closure;**  
for low count fiber distribution applications.

*New Expanded Version!*

# The smallest member of the COYOTE® Family of fiber optic closures; for node applications in low-count fiber distribution networks.

## Still growing

The latest and smallest addition to the COYOTE Family of fiber optic closures is just what you need for your fiber distribution networks.

At 14.75" (37.47cm) long, 8.5" (21.59 cm) wide and 3" (7.62 cm) high, [4.25" (108 mm) for the expanded version], the COYOTE RUNT Closure will easily fit into most pedestals and hand holes. However, the rugged design (meets Bellcore GR-771-CORE) of this closure allows it to be used in all environments; aerial, buried and underground, and it is UL approved for building applications.

## Cable ports

There are three molded-in cable entry ports, with the center entry being larger to accept standard COYOTE End Plate Grommets (optional). Grommets are available to accept a number of small diameter node or drop cables.

## Uniquely versatile

The versatile fiber management system is molded into the bottom shell half, and provides separate areas for routing and protecting the buffer tubes from loose cables or the bare fibers from unitube type cables. These unique features make it easy and convenient to handle splicing of loose tube and unitube cables in the same closure. In addition, space is provided for "expressing" buffer tubes or bare fibers in mid-sheath node or drop applications.

The individual 12-count Splice Tray Kits used in the COYOTE RUNT Closure are compatible with the COYOTE PUP Closure to allow for future upgrading to a COYOTE PUP Closure or even to a 6" or 8.5" COYOTE Closure. This upward compatibility between closures in the COYOTE Family is unique in the industry.

## PLP® reliability

The COYOTE RUNT Closure is manufactured in accordance with ISO 9001-2000 procedures to assure quality and is backed by the experience and field support that PREFORMED LINE PRODUCTS has been noted for in fiber optic closures for over twenty years.

Ask about our FLX-Pack System which allows you to create a "personalized" kit containing the COYOTE RUNT Closure and the accessories you need for a specific application.

Catalog No.	Description Inches (mm)
8006671	COYOTE RUNT Closure Kit, includes LOCK-TAPE™ Sealant, Bond Brackets, and Transport Tubing
8006794	Expanded COYOTE RUNT Closure Kit, includes LOCK-TAPE™ Sealant, Bond Brackets, and Transport Tubing
8003574	Expansion Kit, includes Expanded COYOTE RUNT top shell and longer studs for Splice Trays
Accessories	
Catalog No.	Description Inches (mm)
80806033	Splice Tray Kit (12-count), includes Splice Tray with Elastomer Splice Block, Felt Tape, Tie Wraps, Cover and Recording Label
80807114	Ribbon Splice Tray (up to six mass fusion splices)
80806037	3/4 (19) Plug Kit (contains 2 plugs)
80806038	1 (25) Plug Kit (contains 2 plugs)
8003394	1-Entry Grommet for 3/4 (19.05) Entry, Cables of .31 - .38 (8-10)
8003392	2-Entry Grommet for 3/4 (19.05) Entry, Cables of .27 - .31 (7-8)
8003391	3-Entry Grommet for 3/4 (19.05) Entry, Cables of .20 - .27 (5-7)
8003399	2-Entry Grommet for 1 (25.4) Entry, Cables of .38 - .43 (10-11)
8003400	3-Entry Grommet for 1 (25.4) Entry, Cables of .31 - .38 (8-10)
8003402	3-Entry Grommet for 1 (25.4) Entry, Cables of .27 - .31 (7-8)
8003607	4-Entry Grommet for 1 (25.4) Entry, Cables of .27 - .31 (7-8)
8003401	4-Entry Grommet for 1 (25.4) Entry, Cables of .20 - .27 (5-7)
8003576	6-Entry Grommet for 1 (25.4) Entry, Cables of .12 - .16 (3-4)
8003467	Adjustable Aerial Hanger Bracket Kit
8003470	Manhole Support Bracket Kit
80805238	C-Cement, 1 oz Tube
80803989	Fiber Optic Shield Connector (1 each) 3M #4460-F/FO
8003281	External Bond Clip Kit (2 per kit)
8003523	COYOTE RUNT Closure Wall Mount Kit
8003571	Universal Pole/Wall Mounting Bracket Kit for COYOTE RUNT Closure
Splice Tray: 0-7/8" L x 5-1/2" W x 7/16" H (175 L x 140 W x 11 H)	

Splice Tray Capacity: COYOTE RUNT and Expanded COYOTE RUNT Closures							
Splice Tray Catalog Number	Description	Usable Connectors	Splice Capacity Per Tray	Maximum Number of Trays per Closure		Maximum Closure Splice Capacity
